ENVIRONMENT AND ENERGY USAGE

ENVIRONMENT AND ENERGY USAGE POLICY

This is to manage energy in such systematic way so as to minimize its impact on the environment. The policy implies to explore the renewable energy resources to reduce the burden of the Government to find out substitute natural resources as solution to the energy crisis. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage. College devoted to environmental awareness. to undertake green initiatives, and to conduct green literacy programs to save energy and to protect the environment.

- To assess out energy usage and measure its impact on the environment.
- To reduce local air pollution emissions using environment-friendly vehicles, including bicycles, public transportation and use of pedestrian-friendly roads.
- To install LED bulbs in the complete campus to save energy.
- To undertake plantation drive.
- To encourage use of advanced technologies to minimize energy consumption, atmospheric emissions and noise particularly from vehicle fleets.
- To take additional measures to continuously improve our energy consumption.
- To develop systematic waste management mechanism.
- To ensure the availability of necessary resources to achieve our objectives.
- To monitor and respond to emerging environmental and energy issues. To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance.
- To provide information and training opportunities on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives those contribute to environmental protection.
- To engage in dialogue with the Government agencies, municipal corporation and actively work with the local organizations in the areas of environment, energy efficiency and sustainable development.

Save Energy Tips :

- Enable the power management functions on your computer and monitor so that when you are not using them, they enter a low power "sleep" mode.
- When you leave your Table, turn off your monitor.
- Set your laser printer's power management options to "on".
- When possible, log off instead of shutting down.
- Use daylight instead of unnecessary lighting.
- Use small fluorescent or LED lighting.
- When not in use, turn off the lights in Seminar hall, Classrooms, Laboratory, Library and College office.
- Use fans when necessary.
