Yes I have visited my own school & college today don't know how to express... would like to just say that... the ~~our~~ parents of our school like our Principal ~~sir~~ & all staff members were so kind to me today that I never felt that I had left this place in 1992.. It is like just some few years back I have left this specially the love that our principal sir Dr. Shi. Khandelwal sir & Shi. Pabil sir actually had a long discussion about all our memories.

In our school days we were afraid of going to principal's office because only when we were punished we would see that office.

but today had a very humble welcome from our Principal sir.

Thanks for all this sir.

Viram joshi.
